Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

2. The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-25 are rejected under 35 U.S.C. 102(e) as being anticipated by Seiler USP 6,690,996.

See the attached marked up drawing figures 3-5 of Seiler depicting the claimed features.

RE claim 25, in figure 5 of Seiler, the area inside the guide means 12 is hollow in the area of the + sign and the directional arrow.

Conclusion

4. Applicant's arguments filed June 20, 2008 have been fully considered but they are not persuasive. The applicant's arguments begin with discussion of specification paragraph [0036] which the applicant points out that the guide means is not formed by a drum in the instant invention.

The examiner interprets the prior art with respect to the claims in light of the specification. The claims are silent with respect to the "not formed by a drum" language. When comparing prior art such as Seiler to the applicant's claims the mere terminology used is not required to match verbatim those terms used in the claims. For instance the applicant argues that his guide means does not match the term used in the rejection, instead the rejection utilizes the drum 12 as the guide means. As long as the device of Seitler performs the function as set out by the claims, then the guide means "term" is just a term and is not considered a specific definition as defined in the specification of the applicant. The applicant's claims contain broad terminology with broad functionality and the previously attached marked up drawings meet the claim language as previously recited.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
